Mr. Fred Radke

Dear Fred,

Thank you for the efforts you have put into keeping the French Quarter free of graffiti. While this effort can be controversial, the French Quarter Business Association recognizes your efforts and would like to see you take them one step further.

As discussed earlier this year, we have secured paint donations reflective of the palette approved by the Vieux Carré Commission. Everyone in the French Quarter would be much happier to see these colors replace the gray paint you currently use in your endless war on graffiti.

In order to provide our endorsement for the continuation of this mission, we would like to propose a logging procedure which will involve contacting property owners for permission prior to painting their buildings. Once you have identified a location in need of paint, we ask that you contact Sharon Vaughn to make an effort to contact the property owner. The attempt to contact the proprietor will be documented as either acknowledged or not acknowledged, and you will be contacted with this information. We hope that our willingness to help track these efforts will increase the level of cooperation you will receive.

Fred, thank you for embracing this addition to your current graffiti efforts.

Best Regards,

Mark S. Wilson  
President
